Strong start into the new year: EPPA welcomes three new members

Brussels – February 2022: EPPA, the European trade association of PVC window system suppliers, is welcoming three new members: with Alphapro Groupe from France, Finstral from Italy and the association Polskie Okna i Drzwi from Poland, EPPA strengthens its European representativeness and national network.

The French Alphapro Groupe joins the association with its two brands **Profialis** and **Alphacan**, which manufacture PVC profiles for windows and doors but also tailor-made applications in many other industrial sectors.

Finstral is a profile but also a window manufacturer, located in Italy. In addition to windows with PVC cores, the South Tyrolean family business produces entrance doors and conservatories.

EPPA's association network has been strengthened by the membership of **Polskie Okna i Drzwi (POiD) from Poland**: the window and door association is a nationwide industry organisation in which more than 100 manufacturers, suppliers and dealers of joinery working in Poland are organized.

"The new members will enhance our work for the industry but also provide more weight to EPPA's voice in exchanges on the European level. We are looking forward to a mutually beneficial cooperation," explains Patrick Seitz, President of EPPA.

A complete overview of the EPPA network can be found online at:
